**NATIONAL SCIENCE CENTER'S FORT DISCOVERY ROLLS OUT THE RED CARPET FOR
TWO NEW EXHIBITS!**

Augusta, GA – Beginning March 12, 2001, visitors to the National Science Center's Fort Discovery will have two new exhibits to interact with.

The HUMAN GYRO is a permanent addition to the more than 270 hands-on, interactive exhibits currently available at the science center. Have you ever wondered how it feels to float in space? Now's your chance to find out for yourself. Hop onboard the HUMAN GYRO and take the ride of your life!

The Knox Gallery will feature "Techno Trooper" – an exciting , interactive exhibit featuring technologies used by soldiers for peacekeeping in the 21st Century. Technologies such as voice recognition, global positioning systems, biometrics and advanced battery powered technologies are included. It's hands-on FUN for visitors of all ages.

These exhibits are included in the price of admission to Fort Discovery. For more information about Fort Discovery call 706-821-0200 or 800-325-5445 or visit our web site at www.NationalScienceCenter.org. Through a unique partnership with the U. S. Army, the National Science Center operates Fort Discovery and other

national education programs.
