**GREAT PHOTO/NEWS STORY OPPORTUNITY AT FORT
DISCOVERY -- SATURDAY, MARCH 11 -- 10 A.M. - NOON**

"DRAW ON NATURE" WORKSHOP

Augusta, GA -- The National Science Center's Fort Discovery and the Morris Museum of Art will host a workshop for 4th - 8th grade educators on Saturday, March 11, in the Knox Gallery at Fort Discovery. Experts in the fields of science, art and technology will lead teachers through activities which include exploring the technology-connected lessons specifically written for the project, investigating the Fort Discovery exhibits relating to light, color, vision and art; and examining the John Abbot collection at the Morris Museum of Art. Hands-on activities will take place between 10 a.m. - Noon and offer the best photo/news opportunity.

The workshop is in preparation for the "Draw On Nature" festival scheduled April 29-30 at Fort Discovery and the Morris Museum of Art. Rudy Mancke, host of SCETV's NatureScene, will lead nature walks along the Savannah River and present a slide lecture on the art and life of John Abbot during the event. Student journals will also be on display at Fort Discovery and a variety of other activities combining science, art and technology are planned.

WORKSHOP/FESTIVAL CONTACT: Cheryl Zimmerman, 821-0224.
