

JASON Project Public Day
Saturday, February 1, 2003 * 10 a.m. - 5 p.m.
National Science Center's Fort Discovery

Find out what the JASON Project is all about during this exciting journey to explore the Channel Islands region of California. Family-oriented activities and workshops, live broadcasts hosted by famed oceanographer and underwater explorer Dr. Robert Ballard and participate in special science demonstrations. Free with paid general admission. To find out more about the JASON Project visit our web site at www.NationalScienceCenter.org.
